

VERGEL

REGION

DO Alicante, Spain

GRAPE VARIETIES

75% Alicante Bouschet, 20% Merlot, 5% Monastrell

VINIFICATION

The Alicante Bouschet grape is responsible for the fruitiness, deep color and the well balanced tannins. The skins and the pips (seeds) are macerated at a very low temperature for a short time to avoid excessive tannins. The Merlot and Monastrell are vinified separately using the traditional method to extract the distinct character of each variety; the Merlot lends aromas of pepper, black fruits and truffle; the Monastrell softness and fruitiness.

PROFILE

Vibrant red color rimmed with violet. A very fruity nose with notes of red and black fruits with an underlying floral aroma. Spicy, round, warm and pleasant in the mouth with a long, pleasing finish. Full-bodied.

SERVING SUGGESTIONS

A food friendly wine. Ideal with any entrée or cheese course.
